## DETAILED ACTION

### *Specification*

This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.

### *Claim Rejections - 35 USC § 112/101*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims provide for the use of "polyphenol compounds or derivatives thereof present in the form of an extract of rosemary" and "polyphenol compounds chosen from carnosol, rosmanol, rosmarinic acid and carnosic acid, and derivatives thereof" as free-radical scavengers in cigarette filters, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 1-17 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper

process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

### ***Allowable Subject Matter***

The examiner has determined that the instant application contains allowable subject matter. The following is a statement of reasons for the indication of allowable subject matter:

While the closest prior art of record teaches a cigarette filter impregnated with oil of rosemary, which would inherently contain polyphenol compounds, said art neither teaches nor suggests a process wherein rosemary is subjected to extraction with a solvent to obtain polyphenol compounds selected from the group consisting of extract of rosemary, carnosol, rosmanol, rosmarinic acid and carnosic acid, and wherein said polyphenol compounds are incorporated into a cigarette filter. Further, the prior art of record fails to disclose or suggest a cigarette filter obtained by this process.

The examiner suggests the following claim recitation:

"Claim 1. Process for preparing a cigarette filter wherein rosemary is subjected to extraction with a solvent to obtain polyphenol compounds selected from the group consisting of group consisting of extract of rosemary, carnosol, rosmanol, rosmarinic acid and carnosic acid, and wherein said polyphenol compounds are incorporated into a cigarette filter.

Claim 2. Cigarette filter obtained by the process of claim 1."
